This reissuance is in response to the Notice of Disposal (NOD) for renewal dated October 15, 2021 and authorizes the injection of nonhazardous industrial waste fluids into groundwater of the state per Permit Section 1.1.1.4. Specifically, the following Class I UIC wells are authorized for nonhazardous waste disposal under the Permit as described in AK-11018-A:

If the EPA permit is modified or reissued during the term of the Permit, the applicant must submit an NOD to DEC to revise this authorization and include the modified or revised EPA permit within 90 days after the EPA revision per Permit Section 1.1.1.3.

The permittee must submit the DEC annual report form(s) (enclosed) by January 31st of the following year for each individual well covered by this authorization. Copies of other reports required by EPA (e.g., mechanical integrity reports or EPA form 7520) are no longer required to be submitted to DEC per Permit Section 1.5.4. Submittals including reports and notifications must be sent to:
